Activity	Hazard Identification & Associated Risk Type/Cause	Assess Risk use matrix	Elimination or Control Measures
Bushwalking within Oxley Wild Rivers National Park. Threlfall Walk 5.5km to lookout and Blue Hole along tracks within the National Park.	Falling over causing sprains, cuts and abrasions.	3	<ul style="list-style-type: none"> Centre teachers carry first aid kits and are trained in Senior First Aid. Activity sites are inspected prior to activities. Safety brief to students before start of activity. Students are warned of potential dangers before walk commences. Students wear hats and sunscreen for sun protection. Sunscreen is available. Expected weather conditions checked before activity. Ensure all participants are suitably attired. Activity may be suspended. Medical conditions are indicated to staff prior to activities. Measures are taken to eliminate, avoid or minimise exposure to known allergens. Centre teachers carry first aid kits and are trained in Senior First Aid. Students are instructed to watch where they are moving and warned of uneven surface. Group is led and followed by school and/or EEC staff. A teacher to student supervision ratio of 1:15 is adhered to. Students do not leave the activity site unless accompanied by an adult. Maintain safe distance from cliff faces. Students are encouraged to bring water and drink before the walk and after.
